

# SWOT Hydro Working Groups Going Forward

Tamlin Pavelsky

Hind Oubanas

# Working Groups Now

- Discharge Algorithm Working Group (DAWG) (every 2 weeks)
  - Durand, Gleason, Malaterre, Larnier
- SWOT Lake, Estuary and Wetland Group (SLEW) (Monthly)
  - Wang, Biancamaria
- River Science Working Group (Monthly)
  - Rodriguez, Papa
- Deltas, Estuaries, and Coasts (Monthly)
  - Simard, Ayoub, Laignel, Matte
- Global Modeling Group (Didn't Launch)

# Parameters for Next Science Team

- We probably want to keep some existing working groups
  - Leads may need/want to change, but we won't decide that here
- We have more people (yay, thanks Nadya and Yannice!), so we can probably run more working groups.
- We don't want 35 working groups.
- No final decisions will be made today because we don't have all members of the new ST here
- All working groups will remain fully open to all ST and non-ST members.
- Goal across all groups: do amazing science with preliminary focus on getting results out before December 2025 Senior Review

# Working Groups In the Future

- **Discharge Algorithm Working Group (DAWG) (every 2 weeks)**
- **SWOT Lake, Estuary and Wetland Group (SLEW) (Monthly)**
- **River Science Working Group (Monthly)**
- **Deltas, Estuaries, and Coasts (Monthly)**

# Working Groups In the Future

- **Discharge Algorithm Working Group (DAWG) (every 2 weeks)**
- **SWOT Lake, Estuary and Wetland Group (SLEW) (Monthly)**
- **River Science Working Group (Monthly)**
- **Deltas, Estuaries, and Coasts (Monthly)**

**Periodic (virtual) cross-working group seminars ?**

# Working Groups In the Future

## New Ideas

- Reservoirs (subset of SLEW)?
- Floodplain DEM ?
- Early Career (Student/Postdoc) WG (No PIs allowed)

What else?
